

the Swedish Life Cycle Center invites you to a webinar about

## **ABB Group Sustainability Objectives - development and implementation**

SEPTEMBER 21, 2015 | 14:00-14:45

### WEBINAR

**WHAT:** A webinar about how the ABB Group Sustainability Objectives 2020 were developed and what actions are taken to implement them in ABB's organization, experiences from this process and what the next steps will be.

**WHEN:** September 21, 2015 at 14:00-14:45

**HOW & WHERE:** From your computer or phone. To join the webinar - [click here](#) to register your e-mail address and a link to Lync will be sent before the meeting.

**FOR WHOM:** For Partners in the Swedish Life Cycle Center

### PRESENTATION & CONTENT:

In 2014 ABB launched a set of nine Group Sustainability objectives 2020, covering the full life cycle/value chain and relevant sustainability issues from ABB's perspective. These objectives were developed based on extensive consultations with internal as well as external stakeholders and were also synchronized with ABB's business strategy. Looking at ABB as a contributor to a more sustainable society, we ask four fundamental questions that set the scope for the objectives, which will be presented during the webinar. Presenter is Lennart Swanström, Senior Principal Scientist at ABB Corporate Research.

Lennart Swanström, Senior Principal Scientist at ABB Corporate Research has worked with sustainability issues within ABB since 1990 in close cooperation with business units and other functions in the ABB group to integrate sustainability tools, guidelines and knowledge into ABB's daily business activities. One main aim is to facilitate development of safe, energy efficient and eco-efficient products and processes viewed over the full value chain. One core part of the work is to develop and maintain scientifically based, generally accepted and business relevant tools in cooperation with universities and other partners, like SLC, and apply these in ABB's organization.

There will also be time for questions and discussion. **Welcome to join this webinar!**
