

From thinking to action

Life cycle thinking in retrospect and its future impact on research, industry and society

November 23, 2016 | Gothenburg

Swedish Life Cycle Center's 20th anniversary November 23, 2016 in Gothenburg, Sweden.

We welcome you to participate in the conference *From thinking to action: Life Cycle thinking in retrospect and its future impact on research, industry and society*.

Swedish Life Cycle Center's partners, as well as national and international actors in the field, will share knowledge and insight on life cycle thinking and perspectives from the past 20 years and what to expect in the future.

The number of seats are limited.

Program at a glance

- The impact from 20 years of life cycle perspective as told by the Center's partners.
- Up-to-date subjects and activities presented by experts within Swedish Life Cycle Center.
- Trendspotting with experts and partners on the future role of life cycle thinking.
- Life cycle thinking in an international perspective.
- Exchange and networking.

Wednesday November 23, 2016

Gothenburg, Sweden

09:30-16:00

Swedish Life Cycle Center

Speakers at the conference

Helle Herk-Hansen, Vattenfall

*Vice President Environment
Strategic Development*

Helle has more than 18 years of experience in working with Sustainability, Environmental Management, Health and Safety, Supply chain ethics, Public Affairs and Risk Management in the Energy sector. Helle will talk about how working with LCT and EPD has affected Vattenfall in the long run. What was known in the beginning and what results they have gained 20 years later.

Dr Rana Pant, European Commission

*Joint Research Centre Directorate
Sustainable Resources - Bio-Economy Unit*

Since Rana joined the European Commission in the Institute for Environment and Sustainability (IES) of the Joint Research Centre (JRC) in Ispra, Italy, he has been dealing with applying Life Cycle Thinking to solid waste management, Life Cycle Impact Assessment (LCIA), the European Platform on LCA (EPLCA) and the International Reference Life Cycle Data System (ILCD) Handbook.

Further speakers

Prof Ann-Marie Tillman, Chalmers
Anna-Karin Jönbrink, Swerea
Lena Callermo, Swedish Environmental Protection Agency

Dr Llorenç Milà i Canals, UNEP
Susan Illieski- Janols, SCA
Sannjeevan Baja, FICCI Quality Forum

Full program will be announced further on.

Swedish Life Cycle Center is a center of excellence for the advance of applied life cycle thinking in industry and other parts of society. The center is a joint collaboration platform for universities, industries, research institutes and government agencies for competence building and exchange of experience to move the life cycle field forward. www.lifecyclecenter.se
