

Become a student volunteer at the SETAC Europe LCA Symposium in October!

Swedish Life Cycle Center is looking for students who are interested in supporting us during the SETAC Europe 26th LCA Symposium, 21–23 October 2024, in Gothenburg at Chalmers University of Technology.

We are seeking motivated students to assist during the October conference. Activities include staffing the reception, registering participants, acting as technical hosts, managing parallel sessions, and supporting poster presenters and exhibitors.

Undergraduate and graduate student volunteers will have the opportunity to attend sessions, side-events, and social gatherings. Join our enthusiastic team and gain valuable conference experience. Volunteering at the symposium will help you build a professional and personal network, leading to potential collaborations and new friendships!

Candidates should meet the following criteria:

- Be an undergraduate or graduate student (Bachelor or Master level).
- Be fluent in spoken and written English.
- Be available for volunteering on at least one of the three days of the symposium.
- Have a cooperative and respectable attitude.

How do I apply?

Fill out the form linked below to complete your application before 15 September. We will go through applications continuously, if we have enough volunteers earlier than 15 September, application will be closed at an earlier date.
