## Nordic workshop regarding Product Environmental Footprint (PEF) developed by EU Commission

**23 February 2017, 9.30 – 17:00**

**Stockholm, Sweden**

**Aim of workshop:** Participants during the workshop will provide input to the EU Commission process to define the LCA based PEF method. Future needs and potential legislations/directives for life cycle thinking in product stewardship, procurement and design requirements will also be covered.

The workshop will focus on different issues e.g:

- Product segment structure in PEF – Granularity for relevant product comparisons
- Weighting and impact assessment methods
- How should the methods be used for different applications; public procurement, eco-design, value chain management, EPD and ecolabelling

**Key speakers:** Michele Galatola, EU Commission and Paul Bruijn, Heineken.

**Target audience:** PEF/LCA experts from industry, authorities, consultancy

*The workshop is organised by the Nordic Environmental Footprint group (NEF), the Swedish Life Cycle Centre and IVL Swedish Environmental Research Institute. NEF is a network group established in 2015 under Nordic Council of Ministers. The aim of the group is to coordinate the Nordic countries authority work within PEF and to disseminate knowledge regarding PEF to Nordic stakeholders.*

The full program will be available in January. In case of questions, please contact
