

SWEDISH
LIFE CYCLE
CENTER

*Swedish Life Cycle Center is a center of excellence for
the advance of applied life cycle thinking in industry
and other parts of society*

A faint, light gray world map is centered in the background of the slide, showing the outlines of the continents.

*We aim for credible
& applied life cycle
thinking globally!*

library

Core values and principles

Our activities

Research & groups

Working groups

- Academy group
- Biodiversity & land use
- Get the prices right
- Government agency group
- LCA data & methodology
- LCA & vehicles
- Social LCA

Expert groups

- Environmental footprint
- Data strategy

Projects

- Adapted decision support for increased energy efficiency in value chains
- Development of methodology to communicate environmental damage cost data
- Swedish platform for the life cycle perspective

On the agenda 2018-19 - Swedish Life Cycle Center & Swedish platform for the life cycle perspective

NOV

- [Hållbara livsstilar. 14-15/11](#)
- [Webinar: Towards increased impact of life cycle information. Emma Rex. 25/11.](#)

JAN

- [Webinar: Measures for resource efficiency and circularity. Anne-Marie Tillman. 17/1](#)

DEC

- New agreement for Stage 9.

FEB

- [Network conference. Stockholm 7/2.](#)
- Summary Report stage 8 + Annual Report.

JULY

- Almedalen: Seminar. 30/6-7/7.

Many activities are able to take place thanks to the project Swedish platform for the life cycle perspective, funded by the Swedish Energy Agency.

370

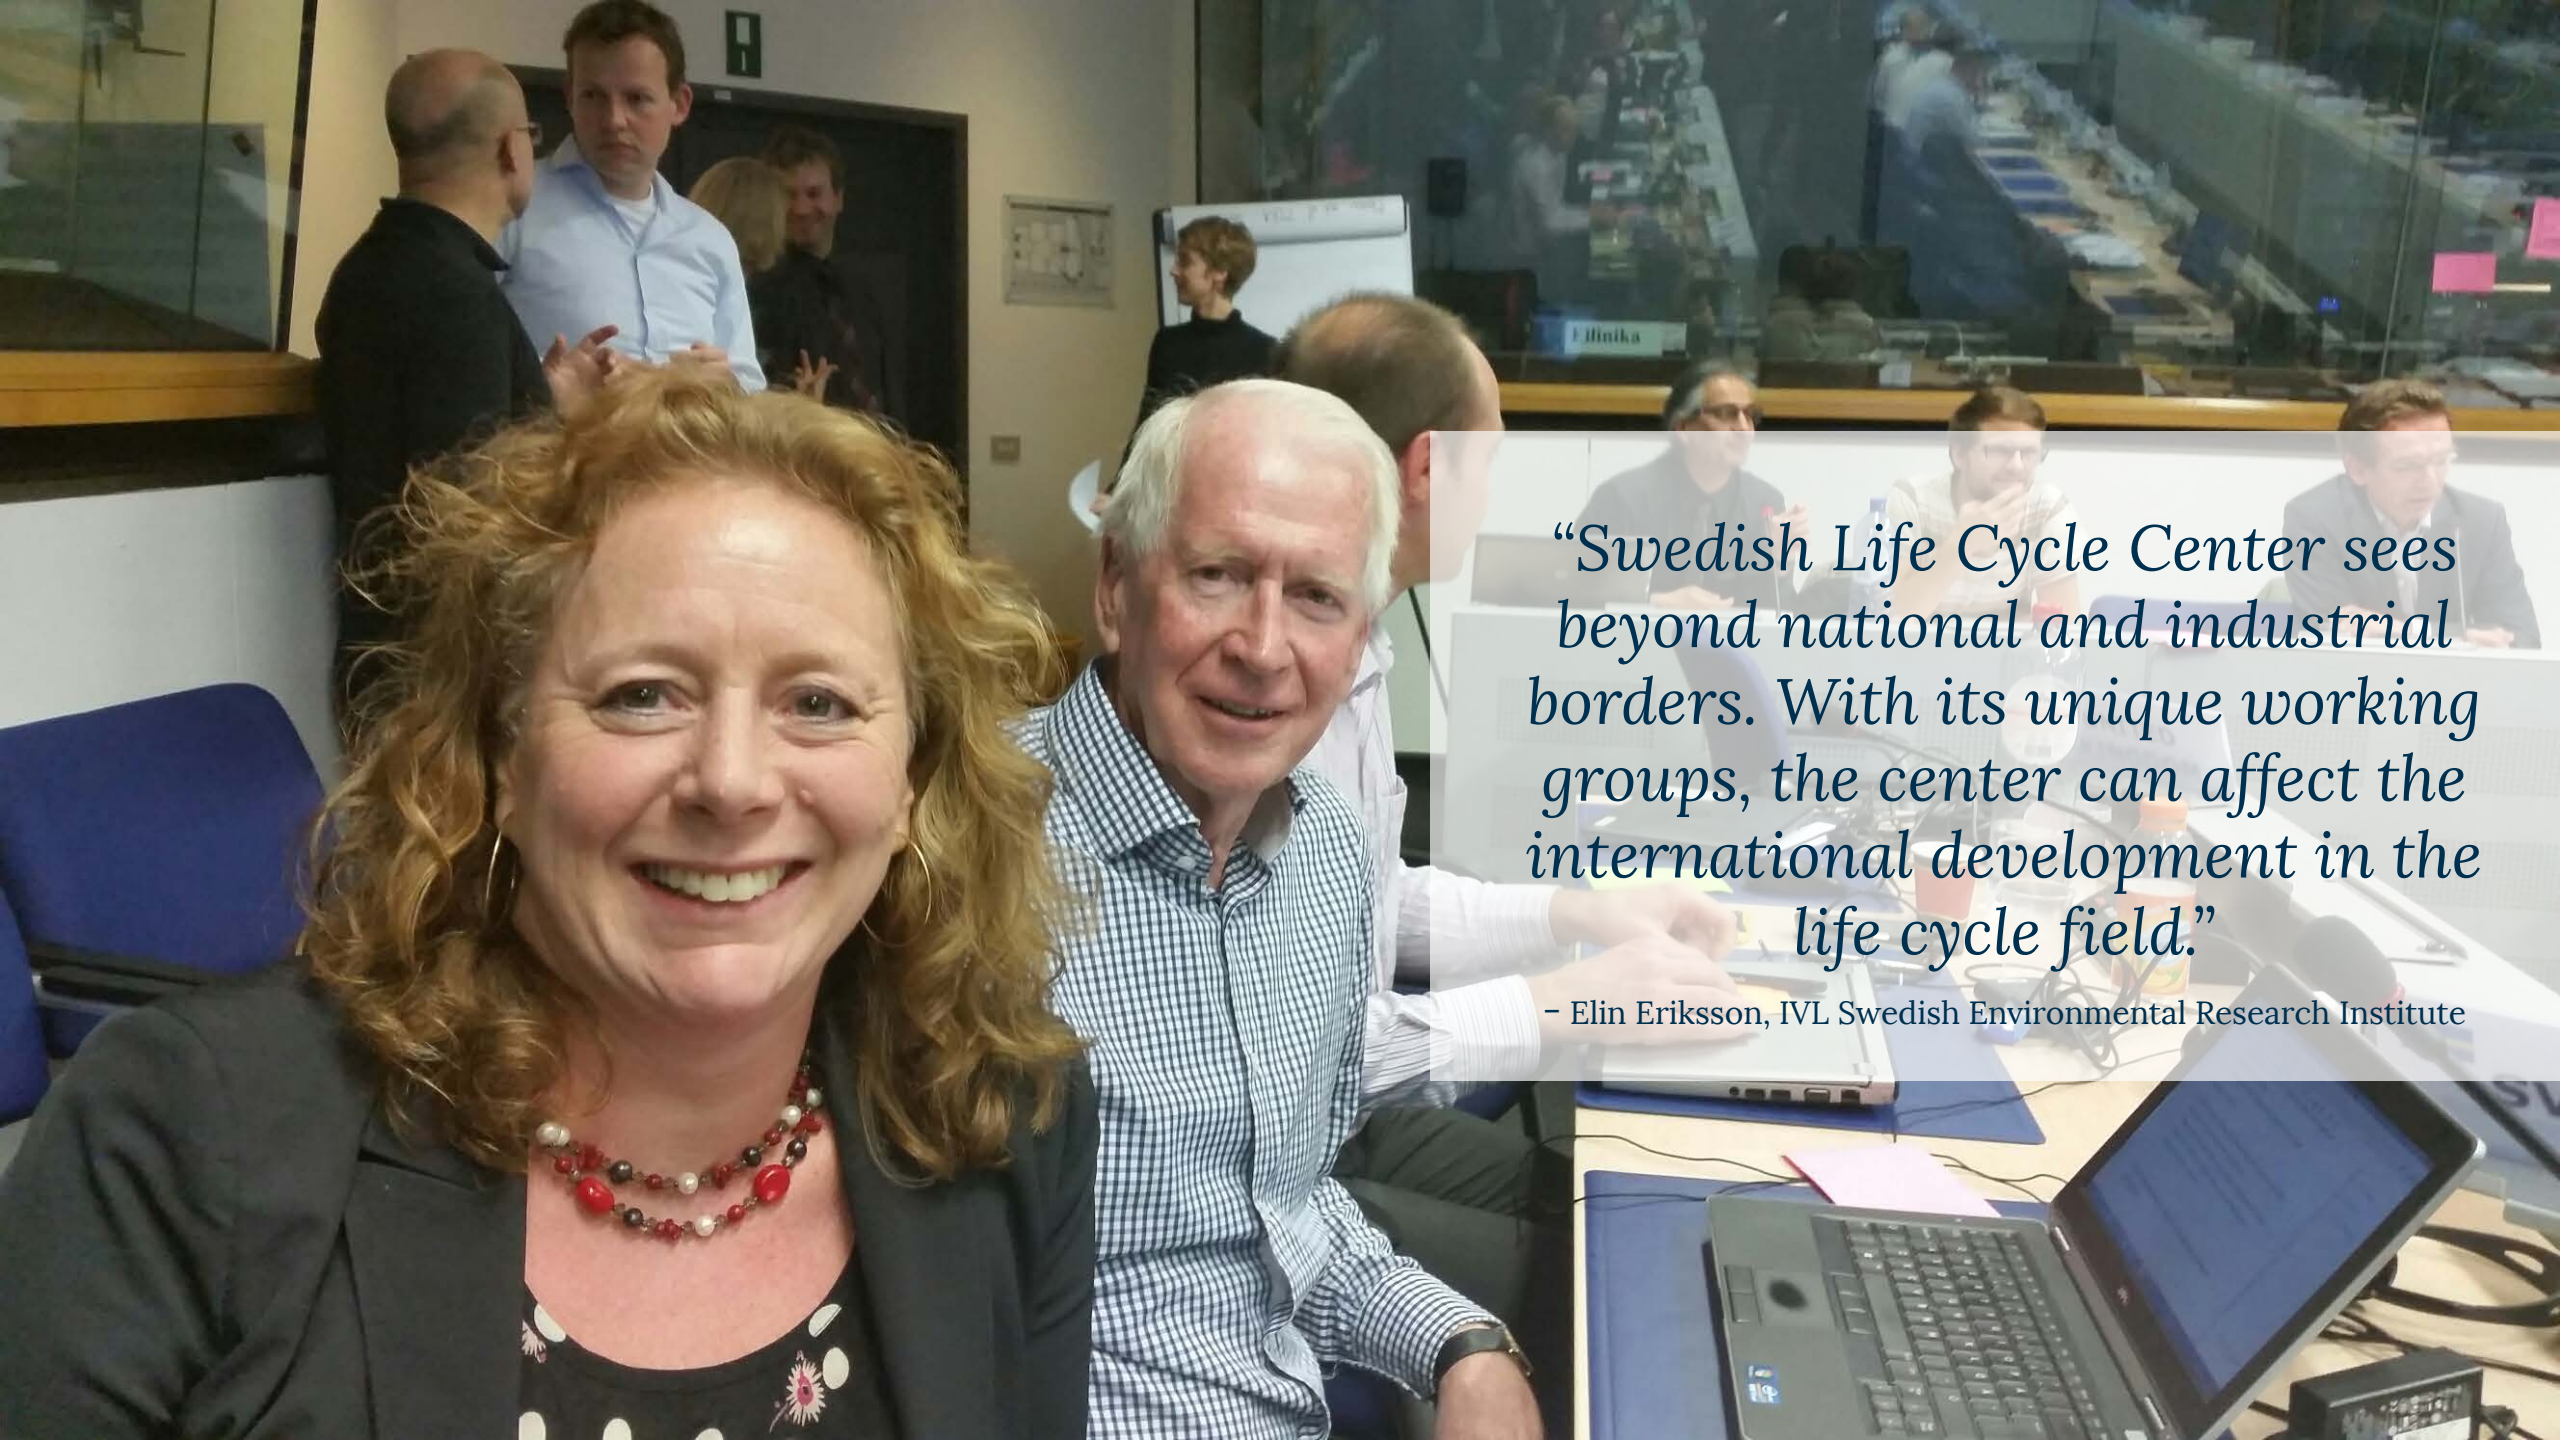

life cycle professionals in the
network

A value-adding partnership

- Obtain tools and inspiration for new strategies and working processes to implement in your operations.
- Benchmark the partners within the center.
- Collaborate in joint research projects with academia, research institutes and partners in industry and authorities involved.
- Increase your knowledge through close contact with other experts within the life cycle field.
- Be highlighted as a frontrunner in sustainability. Your good examples, research or initiatives are communicated in the channels of Swedish Life Cycle Center.
- Obtain access to high quality decision support and a network of over 400 life cycle professionals.
- Get involved in strategic development through your seat on the center Board.
- Find new ways to manage long-term sustainability.
- Use the web forum for close contact with partners.
- Make a larger impact through joint efforts to influence national and international initiatives.

“Swedish Life Cycle Center sees beyond national and industrial borders. With its unique working groups, the center can affect the international development in the life cycle field.”

- Elin Eriksson, IVL Swedish Environmental Research Institute

“With a lot of competence gathered in one network we can easier reach out with new research solutions and life cycle knowledge.”

– Susanna Widstrand, Swedish Energy Agency

“The network has supported in many issues. When we discussed purchasing a new software solution for LCA, the center’s partners were there to give advice and share experience.”

Anna Widerberg, Volvo Cars
